## Voices of Hope

With the skills learned and confidence gained from our nationally-recognized programs, our participants go on to become productive community members and build successful careers earning living wages. Just ask the 500+ clients who were placed in full-time, living-way jobs in 2021.

"After incarceration it's very difficult to try and reenter society. When you get out of jail, try to reintegrate, and do things on your own, you get so disheartened. You get this sense of not being able to do it because it feels like the world is against you."

"But Ready4Work flipped things upside down in a good way. The program gives you the support you need to gain the ability and the opportunity to succeed in life regardless of what you've done."

"Nobody is a lost cause to the team at Operation New Hope. Without the Ready4Work program, there would be no way I'm as half successful as I am right now."

"Even when I tried to turn my life around, my past just kept pulling me back down. Jail took something from me and left me with hopelessness, insecurity and shame. Operation New Hope raked the ground for new seeds to be planted in me. I began believing that anything is possible."

"I thought my past was so bad that it was going to hold me hostage. And I'm now proud to say that's not who I am anymore. Hope is a wonderful thing!"
